

REMARKS

The claims as originally presented claimed less than that to which applicant is entitled. New claims 12 through 16 are presented herewith to go along with the original 11 claims. The new claims simply eliminate the need of the zinc-containing component in the composition.

The application is believed to be in proper formal condition, and the fees necessary for the additional independent claims is enclosed herewith. The application is believed to be in condition for allowance, and an early notice to that effect is respectfully solicited.

Respectfully submitted,

Terry M. Crellin
